SUMMARY

Frontend Developer with a background in Electronics and Communications Engineering and hands-on experience building responsive, user-friendly web applications using React.js, Next.js, JavaScript, Redux Toolkit, and REST APIs. Skilled in API integration, reusable components, state management, and modern frontend development, with a focus on clean code, performance, and continuous learning.

WORK EXPERIENCE

Arabia-IT

Full-time October - December 2023

- Gained hands-on experience working on real-world projects, collaborating with other engineers, contributing to the development of an existing project, and building another project from the ground up.

Frontend Team Leader | SEFF

Training Program July - September 2023

- Led a 12-member Frontend team as a Team Leader, Instructor, and Mentor, guiding the team in building a complete website from the ground up and integrating work across CSS, JavaScript, and React into a consistent final product.

Freelance Frontend Developer | Upwork

2022- Present

- Completed 2 client projects on Upwork while maintaining a 5.0/5 rating.
-

EDUCATION

Bachelor of Science in Electronics and Communications Engineering

Sep 2019- Jan 2025

AASTMT - College of Engineering

- Graduation Project: Healthcare Monitoring system using Smart Shoes (Vectos) A+
-

• **Certifications:**

- React.js with Maximilian Schwarzmülle at Udemy
- Front-end Diploma at Route Academy
- CCNA
- Network and IT Essentials
- Data science at IBM - DEPI
- Imperious University of America Scholarship With Kayfa and IAO (AI)

• **Technical Skills**

- JS, Python, C, Unity, MATLAB
- Packet Tracer
- Image Signal Processing
- IoT, Embedded System

• **Volunteering**

- AAST Rally Competition for Startups (7th)
- Plan Inter. Competition for Startups (Top 10)
- ICPC Competition
- Robo Pirates Competition
- IT at IEEE AAST branch
- ML at IEEE Alex branch
- Writer at AAST E-Magazine
